

## ORDER FORM

***Phytopathologia Mediterranea* Vol. 50, 2011 – [www.fupress.com/pm](http://www.fupress.com/pm)  
SPECIAL ISSUE dedicated to GRAPEVINE TRUNK DISEASES,  
including papers from the  
“7th International Workshop on Grapevine Trunk Diseases”  
Santa Cruz, Chile, January 17–21 2010**

This Supplement to Vol. 50 of *Phytopathologia Mediterranea* is dedicated to recent research achievements on grapevine trunk diseases, following the 7th International Workshop on Grapevine Trunk Diseases, held in Santa Cruz, Chile (17-21 January, 2010). The meeting was attended by 120 participants from all grape-producing countries in the world. Eighty presentations were given. Some of these presentations were then written as manuscripts, and peer-reviewed as original research work, and these papers are published in this issue. A very wide and complete review on Botryosphaeriaceous fungi infecting grapevine opens the issue, followed by 20 research papers on aspects of aetiology, epidemiology and control of the esca disease complex, eutypiosis and other wood canker diseases of grapevine, along with reports on new pathogens involved in trunk diseases. This issue is a valuable reference for all those dealing with the subject, being the seventh of a series of issues dedicated to grapevine trunk diseases. The abstracts of the all papers presented at the workshop were published in *Phytopathol. Mediterr.* 49, 103–133 (2010). This Supplement is published with financial support from the International Society for Plant Pathology (ISPP).

*I wish to order:*

	No. of copies	Price per copy
<b><i>Phytopathologia Mediterranea</i> Vol. 50, 2011, Supplement on “Grapevine trunk diseases”</b> containing papers following data presented at the 7 <sup>th</sup> ICGTD Workshop (Santa Cruz, Chile, 2010)	<input type="checkbox"/> ...	€ 50.00
